

CLAIMS

1. A board for the construction industry comprising a base board coated with a substantially thin layer of coating material, wherein the external surface of a segment of said coating has an area which is larger than the area of the inner surface of said segment.
2. The board for the construction industry according to claim 1, wherein an external surface of said coating comprises a plurality of tiny dome-shaped protuberances.
3. The board for the construction industry according to claim 1, wherein said base board is made of plastic or MDF.
4. The board for the construction industry according to claim 1, wherein said base board is made of XPS or EPS polystyrene.
5. The board for the construction industry according to claim 1, wherein said coating includes a mixture of plastic adhesives, additives and cement/concrete.
